Chemours Contractor Recognized for Longtime Support, 1976-2022

Chemours Johnsonville recognized Phillip Patrick, president of L.D. Patrick Contractors, Inc., on Thursday, April 14, for his many years of service and support to the Johnsonville site. Phillip's retirement comes after working 46 years for the local construction company founded by his late father, L.D. Patrick. It also brings the closing of a company that has served the Johnsonville site since 1976.

As an employee and the ending president of L.D. Patrick Contractors, Phillip has been a key contributor to the reliability of the furnaces and other critical equipment through the quality of L.D. Patrick's brickwork. "It's now time for Phillip to retire, and we want to take this opportunity to thank him and the L.D. Patrick construction company for their steadfast support and decades of great contributions to the Johnsonville plant," said David Little, Chemours Johnsonville contract administrator. "Phillip and the L.D. Patrick company will certainly be missed. We thank you, and we wish you the best of luck in your retirement."

Based in New Johnsonville, the company's founder L.D.

Patrick came to work at the site in the 1960s and in 1976 established the construction company in partnership with his wife, Rena. Phillip joined the company in 1977 after being called by his father to help at the site on a holiday. In addition to bricking services for furnaces, tanks, and equipment, the company also provided insulation work and other support roles to the site.

L.D. Patrick Contractors, Inc. is credited with not only bringing its own family to the site, but also providing an opportunity for other families to become part of the Chemours Johnsonville team. Over the years, several employees that started with L.D. Patrick later moved on to work for Chemours Johnsonville with a valuable foundation of safety and operational disciplines. In addition to providing labor, the company was also instrumental in developing processes and equipment to improve its operations and provide a safer work environment for its employees. Upon closing, the company had nearly three years without a recordable injury.

About The Chemours Company
The Chemours Company (NYSE: CC) is a global leader

in Titanium Technologies, Thermal & Specialized Solutions, Advanced Performance Materials, and Chemical Solutions providing its customers with solutions in a wide range of industries with market-defining products,
